# BETWEEN LAND AND SEA

HANNAH BLACKMORE

## **A collection of landscape and seascape paintings on paper.**

Between Land and Sea is a collection of miniature framed paintings on paper inspired by the ever-changing beauty of the Tasmanian coastline. These works explore the land and ocean meeting point, capturing the rhythmic interplay of light and atmosphere unique to this rugged environment. Each painting reflects the raw power of the sea, the subtle hues of coastal terrain, and the quiet moments of transition between tides. Intimate in scale yet expansive in vision, this collection invites viewers to experience the Tasmanian coastline through a lens of delicate detail and poetic abstraction.

Until 3rd March 2025.

## **HANNAH BLACKMORE**

Hannah Blackmore is a professional artist from Jersey in the Channel Islands, best known for her calm yet dramatic landscapes and seascapes. Influenced by her island upbringing and artistic parents, Hannah pursued a degree in Fine Art painting, and it was in Hobart, Tasmania, that she fully embraced her calling as a professional artist. Her work, often depicting stormy skies and textured landscapes, stands out for its unique technique of mixing plaster with paint to create rich textures.

A resident artist at Salamanca Arts Centre and a member of the Professional Artists Association, Hannah's art has been showcased in several galleries and is currently on display at The Henry Jones Hotel in Hobart. With over a dozen solo exhibitions since 2015, her art is celebrated for its relaxing and emotionally resonant qualities and is collected both nationally and internationally. When not painting, Hannah enjoys walking her dog Oscar, having coffee with her husband Steve, and travelling, all of which add richness to her life and art.
